

O-RING

Silicone sealing resistant not only to demanding weather conditions but also salinity and oils.

PLUG CORE

Equipped with a pressure collar assuring equal sealing pressure on the O-ring.

COVER SLEEVE

Made of flexible and durable material called elastomer TPE-S. Characterized not only by good flexibility at low temperatures but also good aging properties.

GASKET

Makes it easier to tighten the nut. Nut seals the connection between the collar of the shielding sleeve and the collar of the plug core.

NUT

ergonomically shaped, allows for a secure grip and easy fastening on the bayonet socket. Clasp revision makes it possible to check whether the nut has been fastened correctly. Correctness of the clasp also heard through the so-called "Click". The guidance of the dowel pins facilitates the fastening nuts.

CLAMP BAND

used in the automotive industry, it is clamped automatically, which always guarantees the same clamping force.

NEW IP 67 BAYONET connector
